**than the**  
**NATIONAL**  
**average\*\***

\*At the end of school year ("Se Liga" and "Acelera Brasil" educational solutions)

\*\* Average number of read books per student in the primary school, according to Instituto Pró-Livro

**93% of the students**  
recovered from  
school discrepancy\*\*\*

**83% of the**  
**non-literate students**  
**FINISHED THE GRADE**  
**ADEQUATELY LITERATE**

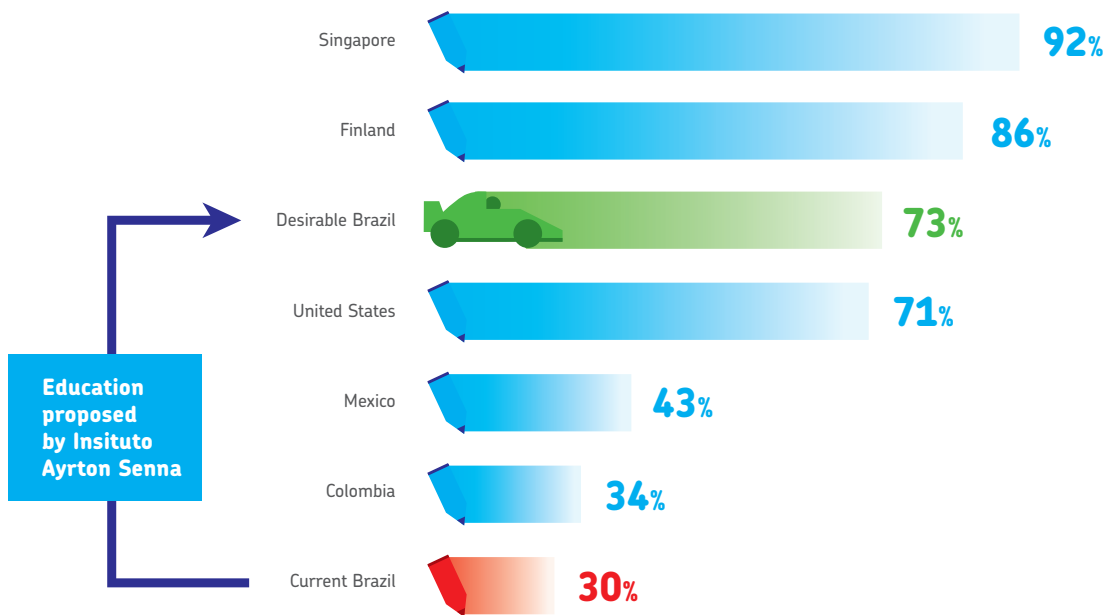

**SE LIGA AND ACELERA BRASIL**  
educational solutions increased  
**THE NUMBER OF BOOKS**  
**READ BY 133%**  
throughout the year

\*\*\*The number refers to the students who concluded two or more years in their school story, among those who are able to progress for more than one year.

# Achievements and Impact Potential

Instituto Ayrton Senna's and Seeduc-RJ's methodology, applied to Colégio Estadual Chico Anysio, has been proven to be a success. If this school was the reality of all Brazilian High Schools, Brazil would go from 66th to 38th position in PISA ranking\*.

### Methodology

\* According to the study carried out by the economist Ricardo Paes de Barros, which evaluated students from a school in Rio de Janeiro, where this solution is fully operated (Colégio Estadual Chico Anysio) – PISA 2015.

The first time they took ENEM (National High School Exam)\*, the students from Colégio Estadual Chico Anysio reached **THE FIRST PLACE IN RIO DE JANEIRO** between the public and private schools with the same socioeconomic level.

\*ENEM 2015

**15X BETTER**

Mathematics performance at Colégio Estadual Chico Anysio is **15 times better\*** than the average of Rio de Janeiro's public schools.
